

# Hematological Diseases Workshops 2019

## Tentative Time Table

	TIME	ACTIVITY
DAY 1 – Tuesday February 12th, 2019	<b>DAY 1 – Tuesday February 12<sup>th</sup>, 2019</b>	
	<b>Pre Conference Workshops (College of Medicine – King Faisal University)</b>	
	8:00 - 9:00 am	Registration
	9:00 - 9:10 am	Welcome/Introductory Remarks <b>Dr. Mohammed F Alfarhan</b> (Chairman, Conference Organization Committee)
	Workshop 1 – Instructor: Professor Stephen Jane, MD Chairman, Department of Medicine, Alfred Hospital, Melbourne, Australia	
	9:10am - 12:00pm Workshop Title	<b>Peri Operative Management of Anticoagulants And The Urgent Reversal of Anticoagulation</b>
	Workshop description	The workshop will focus on the description of the clinical presentation of venous thromboembolism. Evidence-based approaches to the management of venous thromboembolism will be discussed.
	Workshop Objectives	Discuss factors to be considered in a patient on anti-platelet or anticoagulant therapy planned surgery Discuss optimum approaches to reverse Warfarin therapy Discuss strategies to assist in the reversal of non-vitamin K dependent oral anticoagulants
	Workshop 2 – Instructor: Dr. Ahmed AlSuliman, MD King Fahd Hospital, Ministry of Health, AlAhssa, Kingdom of Saudi Arabia.	
	9:10am - 12:00pm Workshop Title	<b>Diagnostic and Treatment Dilemmas in Hematology/Oncology</b>
	Workshop description	Understanding of the biologic basis of malignant and nonmalignant hematologic disorders and have opened a new vista of potential therapeutic approaches to improve cure rates and outcomes.
	Workshop Objectives	Discuss normal and disordered hematopoiesis, including changes related to age from the fetus to the elderly Discuss genetics and cytogenetics pertaining to Hematology Describe the mechanisms of action of chemotherapeutic agents, targeted agents and radiation Discuss the principles of molecular testing including the polymerase chain reaction (PCR)
	12:00 - 1:00pm	Prayer Break and Lunch
	Workshop 3 – Instructor: Dr. Mortada AlSalman, MD King Faisal University, AlAhssa, Kingdom of Saudi Arabia.	
	1:00 - 4:00pm Workshop Title	<b>Bleeding disorders: From Clinical Uncertainty to Diagnosis</b>
	Workshop description	Despite worldwide prevalence of bleeding disorders, diagnosis is often delayed and this is attributed to inability to differentiate normal from abnormal bleeding or incomplete laboratory evaluations.
	Workshop Objectives	Clinical tools for objective evaluation of patient with suspected bleeding disorder. Appropriate utilization of lab investigations to diagnose bleeding disorder.
	Workshop 4 – Instructor: Dr Mansour AlJabri, MD King Saud University, Riyadh, Kingdom of Saudi Arabia.	
	1:00 - 4:00pm Workshop Title	<b>The Bone Marrow Workshop</b> <b>“Evaluation of Bone Marrow Biopsies and Aspirates”</b>
	Workshop description	devoted to lymphoid proliferations with primary presentation in the bone marrow and Interpretation of blood films, bone marrow aspirates and biopsies
	Workshop Objectives	Features of bone marrow involvement in Hodgkin lymphoma, aggressive B-NHL and peripheral T-cell lymphomas, Non-neoplastic lymphoproliferations in the bone marrow , The role of the microenvironment in BM lymphoma manifestations
